Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 9/18/2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

FINAL REJECTION

Response to Applicant's Amendment

The rejection under 35 USC 112, second paragraph, is withdrawn in view of the amendments to the claims.

The rejection over Figures 1 of the applicant's admitted prior art and Swiatowiec et al (US 3,917,959) are withdrawn in view of the arguments presented in the amendments.

Claim Rejections

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 and 12-16 are rejected under 35 USC 102 (e) as being anticipated by Harada et al (US 6,023,363).

Harada et al discloses in Figure 6 a circuit comprising two independent combined trans-admittance stage having transistors (T31-T34, T41, T42) for generating output currents (InT, InB) responsive to voltages (AGCT, AGCB) and an active load having a trans-impedance stage (T11-T12) for generating output voltage (OutB, OutT). Note that the transmission lines are interpreted as the wirings used to connect the transistors together.

Art Unit: 2816

Response to Applicant's Arguments

The applicant argues that the circuit of Harada differs in the fundamental configuration and operation from the claimed circuit because each collectors of T31-T34 are connected in common. The argument is not persuasive because it is based on the limitations are not recited in the rejected claims. There is nothing stated in the rejected claims about the fundamental configuration and the connections of the transistors.

The applicant argues that the input signals INT, INB are the current signals not the voltage signals. The argument are not persuasive because the claimed input signal are read on AGCT and AGCB, and the signals INT and INB are the output currents.

Allowable Subject Matter

Claims 8-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims. The claims would be allowable because the prior art does not show a second latch pair.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 2816

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
